Distributors Wanted

INDUSTRIAL LUBRICANTS

Lubrication Engineers, Inc. manufactures high-performance lubricants – made of highly refined base oils and proprietary additives – that far exceed the performance of conventional oils and greases in a wide variety of industrial and automotive applications.

We're looking for professional, reputable distributors to market and sell our products outside of the USA. If you're interested in this profitable business opportunity, don't delay. Contact us via email at opportunity@le-international.com or visit our Website for more information www.le-international.com.

BEARING RELIABILITY CONFERENCE & EXPO

DORTMUND, 22 - 23 MARCH 2016

join us on

www.bearingreliabilityconference.com

BRCE
BEARING RELIABILITY CONFERENCE & EXPO

1 VENUE! 1 RESULT!

LEARN ABOUT!

• The strategies for improved bearing and machine life • Bearing maintenance fundamentals • Bearing and machine life condition and prediction • Lubrication - The bearing and machine life saver • Bearing 'Root Cause Failure Analysis' • The Role of bearing technology, precision and quality in performance • The Monitoring of 'Low Frequency' bearings • The bearing industry responsibilities

BRCE
BEARING RELIABILITY CONFERENCE & EXPO

BEARING RELIABILITY CONFERENCE & EXPO

BRCE is the meeting place where both the global bearing players meet the established global equipment Reliability strategies and brings them both together as one message – **Bearing Reliability!**

For two days you will experience powerful Key Note speakers from both competencies, listen to selected experts present their strategies to make the bearing more reliable, join workshops designed to help you implement the best strategies and visit the key industrial players at the Exhibition center.

The conference has 4 main sections, with in total 29 presentations and 9 workshops.

WHY JOIN THIS EVENT?

The Bearing is the rotating heart of all machines and if it fails or malfunctions, then so does the machine or equipment, simply put DOWNTIME and LOST PRODUCTION prevail.

By making the bearing last longer -more reliable, equipment uptime will increase and maintenance costs will subside.

This Conference, Workshop and Exhibition structure, will give you the knowledge to help improve your companies business result.

TOP SPEAKERS AT THE BRCE CONFERENCE

Andrew Fraser

Ian Knight

Melissa Cameron

Dan Bradley

Jorg Lange

Michael Whittaker

Fabrice Brion

Kai Gessenich

Mike Forbes

Gary Tine

Kees Veltman

Per Arnold

Gwyn Simmons

Kenan Özcan

Peter Guendling

Javier Vazquez Dodero

Martin Blenkers

Tom Murphy

Jan Brons

Martin Williamson

Toon van Grunderbeeck

Wim Vancauwenberge

More speakers will be announced in the BearingNEWS magazine starting from February 2016.

CONFERENCE & WORKSHOPS AGENDA 22 – 23 March 2016

CONFERENCE & WORKSHOPS: **Day 1** (22 March 2016)

Morning Conference Themes: The Strategies for Improved Bearing and Machine Performance

09:00 10:00	Key Note Address: by Jan Brons. The Bearing Industry Responsibilities	
10:15 10:45	Session Topic Equipment Reliability and the Bearing by Dan Bradley	Session Topic KPI's and Performance Parameters by Paul Wheelhouse
11:00 11:30	Session Topic Planning and Scheduling by Michael Whittaker	Session Topic Equipment Reliability and the Bearing by Andrew Fraser
11:00 11:30	Session Topic Reliability Consulting by Garry Tyne	Session Topic The Bearing Industry Communications Support by BearingNEWS AND BearingCLOUD by Kenan Özcan

Morning Workshop Themes: The Strategies for Improved Bearing and Machine Performance

10:15 10:45	Root Cause Analysis Theme: Exploring the Apollo Root Cause Analysis Program and Methodology. by Melissa Cameron	Bearing Root Cause Failure Analysis Theme: How to define the causes of bearing wear and damage through raceway and component investigation. by Per Arnold Elgqvist	The Manufacturing Game Theme: Understanding the business of Manufacturing through the Manufacturing Game. by Andrew Fraser
----------------	--	---	---

Afternoon Conference Themes: Bearing and Machine Maintenance Fundamentals

13:00 14:00	Key Note Address: by Wim Vancauwenberghe Maintenance, Getting The Formula Right	
14:15 14:45	Session Topic Best Practices in Bearing Maintenance by Per Arnold Elgqvist	Session Topic Equipment Alignment for Prolonged Life by Markus Brotsack
15:00 15:30	Session Topic The use of Ultra Sound within Bearing Maintenance and Prediction Strategies by Tom Murphy	Sessions Topic The Use of Pre Cut Machinery Shims by Christoph Martin
15:45 16:15	Session Topic Outsourcing Maintenance Technologies by Martin Blenkers	Session Topic Effective Sealing Preventing Bearing Oil Contamination by Simon Johnstone

Afternoon Workshop Themes: Bearing and Machine Maintenance Fundamentals

10:15 12:15	Oil Analysis Theme: Using Oil Analysis methodologies to control levels of Oil Contamination and how to reduce wear and failure. by Gwyn Simmons	RCM – Reliability Centered Maintenance Theme: How to use the RCM methodologies for systematic elimination of repetitive machine and component failures. by To Be Announced	Lubrication Reliability Theme: Exploring the 10 steps to make your lubrication program Best in Class and to reduce component wear and failures. by Toon van Grunderbeeck
----------------	--	---	---

Late Afternoon Conference Theme: Managing Reliability and Maintenance Staff

10:15 10:45	Session Topic From Control Drive Management to Self Driven Leadership. by Peter Guendling	Session Topic Free Time
----------------	---	-----------------------------------

AGENDA

Evening Day 1: Conference Dinner @ Speaker

17:30	by Fabrice Brion
-------	-------------------------

CONFERENCE & WORKSHOPS: **Day 2** (23 March 2016)

Morning Conference Themes: Bearing and Machine Life Prediction

09:00 10:00	Key Note Address: by Fabrice Brion Bearing Life Condition and Prediction	
09:45 10:15	Session Topic Vibration Sensors and Monitoring Equipment Developments by Kai Gessenich	Sessions Topic Production Methodologies to Support Maintenance Endeavors – TPM, 5S and Lean by Andy Dobson
11:00 11:30	Session Topic Predictive Maintenance – Do it yourself or Outsource it by Daniel Spring	Session Topic The Monitoring of low frequency bearings by Tom Murphy
11:45 12:15	Session Topic Best Practices in Predictive Maintenance training by Jason Trantor	Session Topic Case Study – Condition Monitoring in the Wind Turbine Industry by Jorg Lange

Morning Workshop Themes: Maintenance, Reliability and Management.

10:15 12:15	A Well Run Predictive Maintenance Program Theme: Exploring the key ingredients and control parameters of an effective PDM program. by Fabrice Brion	Manage Coach and Lead! Theme: Exploring the practical skills and tools for a new frontline leadership. by Peter Guendling	ISO 15000 Theme: Applying structure to your reliability and maintenance strategies. by Martin Williamson
----------------	--	--	---

Afternoon Conference Themes: Lubrication the Bearing and Machine Life Saver

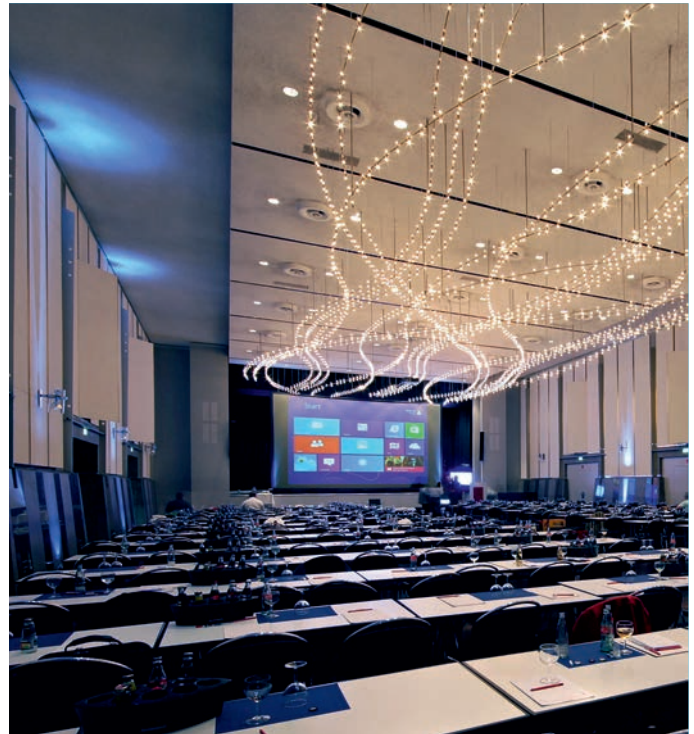

13:00 14:00	Key Note Address: by Ian Knight Bearing and Equipment Lubrication Strategies – Getting it Right.	
14:15 14:45	Session Topic The Technology of Bearing Lubrication by Mike Forbes	Sessions Topic Oil Mist technologies by Christian Schmitt
15:00 15:30	Session Topic The role of Oil Analysis in Predictive Maintenance by Gwyn Simmons	Sessions Topic Filtration for prolonged oil service Life by Kees Veltman
15:45 16:15	Session Topic Best Practices in Lubrication Training by Martin Williamson	Session Topic The UE System approach to controlling your greasing strategies by Frank Ragwitz

Late Afternoon: Closing Ceremony

10:15 12:15	Presentation awards Announcements
----------------	--

EXPO & NETWORKING AREA

Don't miss your chance to network with attendees, exhibitors and visitors in this energetic atmosphere. The BRCE 2016 event will be a fantastic opportunity to catch up with colleagues and to make new connections with other bearing and reliability industry professionals.

There will be 60 booths at the BRCE2016 EXPO with 6m² and 8m². Bigger and customized booths can be provided upon request.

This Conference, Workshop and Exhibition structure, will give you the knowledge to help improve your companies business result.

HOTEL / ACCOMODATION

The BRCE event will take place in Dortmund, the largest one of the industrialized cities in the German Ruhr area.

The accommodation will be at the 4-star Mercure Dortmund Messe & Kongress Hotel, next to the Westfalenhallen exhibition center @ Strobelallee 41, 44139 Dortmund / Germany.
