Introduction

Engineers come regularly to TracePartsOnline.net looking for supplier-certified 3D product models and specifications to use for design projects.

After completing the online registration, design engineers can instantly download millions of CAD models for free in the CAD format they want.

In 2015 alone, TraceParts delivered over 60 million CAD models from its CAD library, helping more than 2,5 Million registered designers find the component they need for their application.

This Design Activity Report will give you detailed information about the profile of design engineers who downloaded CAD models per product family, country, type of industry, job title, department and size of their company.
